SUGG

THEATRE

THE QUALITY PLAY HOUSE

TONIGHT—PICTURES

"THE EARL OF PAWTUCKET"

The brilliant English comedy star, Lawrence D'Orray, with Harry Myers and Rosemary Theby. These stupendous Broadway features are getting bigger every week. This tremendous third release is a whale of a show. New Yorkers paid \$2.50 a seat to see it on spoken stage—and the film version is staged in a manner so lavish and extensive as to be absolutely impossible in the spoken version. Think of it—Lawrence D'Orray himself, supported by lovely Rosemary Theby—honestly, folk, it's the biggest smash in the film world this season. Be sure to see this unusual treat.

I guarantee this picture to please all. Tonight I have an extra attraction on that will please all. Will put on a fiddler contest by three of the old Confederate veterans that will give you any kind of music from "Arkansas Traveler" to the latest fox trot and dances. Come and bring your wife and the children and stay as long as you like. They will be on for both shows.

Mattinee 2:15 to 5 p. m.

Night show, 7:40 to 11.

We also have the Worlitzer 25 piece orchestra. Plenty of Shavano Springs ice water to drink. No extra charge.

5c -- 10c

Grady County Express 25 Cents a Year

Think of it, the official county paper, rock-ribbed Democratic, with all the local, political and official news every week for 25 cents a year. Come running. Remit in coin to

GRADY COUNTY EXPRESS,
Chickasha, Okla.

Despondency Due to Indigestion.

"About three months ago when I was suffering from indigestion which caused headache and dizzy spells and made me feel tired and despondent, I began taking Chamberlain's Tablets," writes Mrs. Geo. Hon, Macedon, N. Y. "This medicine proved to be the very thing I needed, as one day's treatment relieved me greatly. I used two bottles of Chamberlain's Tablets and they rid me of this trouble."—Obtainable everywhere.—Adv. d&w

ROADS IN BETTER CONDITION

Split-Log Drag of Great Service in Keeping Thoroughfares in Shape—How It Is Built.

The use of the split-log drag is important in putting the roads in shape. There are over 2,000,000 miles of earth roads in the country, and the split-log drag is of great service in keeping them in economical repair. The drag is used in many states and in foreign countries. It is used with two, three, or four horses, and is easily constructed.

It is a mistake to construct a heavy drag. A dry red cedar log is the best material for a drag. Red elm and walnut when thoroughly dried are excellent, and box elder, soft maple, or even willow are preferable to oak, hickory or ash.

The log should be seven or eight feet long, and from ten to twelve inches in diameter, and carefully split down the middle. The heaviest and best slabs should be selected for the front. At a point on the front slab four inches from the end that is to be at the middle of the road locate the center of the hole to receive a cross stake, and 22 inches from the other end of the front slab locate the center for another cross stake. The hole for the middle stake will lie on a line connecting and halfway between the other two.

The back slab should then be placed in a position behind the other. From the end at the middle of the road measure 20 inches for the center of the cross stake, and six inches from the other end locate the center of the

The Split-Log Drag.

outside stake. Find the center of the middle hole as before. When these holes are brought opposite each other, one end of the back slab will lie 16 inches nearer the center of the roadway than the front one. The holes should be two inches in diameter. Care must be taken to hold the auger plumb in boring these holes in order that the stakes shall fit properly.

The two slabs should be held 30 inches apart by the stakes. The stakes should taper gradually toward the ends. There should be no shoulder at the point where the stakes enter the slab. The stakes should be fastened in place by wedges only. When the stakes have been placed in position and tightly wedged a brace two inches thick and four inches wide should be placed diagonally to them at the ditch end. The brace should be dropped on the front slab, so that its lower edge shall lie within an inch of the ground, while the other end should rest in the angle between the slab and the end stake. A strip of iron about three and one-half feet long, three or four inches wide, and one-half of an inch thick may be used for the blade.

An ordinary trace chain is strong enough to draw the implement, provided the clevis is not fastened through a link. The chain should be wrapped around the rear stake, then passed over the front stake. Raising the chain at this end of the slab allows the earth to drift past the face of the drag. The other end of the chain should be passed through the hole in the end of the slab.

A MEDICINE CHEST FOR 25c.
In this chest you have an excellent remedy for toothache, bruises, sprains, stiff neck, backache, neuralgia, rheumatism and for most emergencies. One 25c bottle of Sloan's Liniment does it all—this because these ailments are symptoms, not diseases, and are caused by congestion and inflammation. If you doubt, ask those who use Sloan's Liniment, or better still, buy a 25c bottle and prove it. All druggists.—Adv. d&w

Notice: No vaudeville tonight. Vaudeville tomorrow.

Cold Eureka Springs water to drink. Fresh air every three minutes.

5c 10c

Mattinee 1 to 3 p. m. Night show, 7, 8:15, 9:30 and 10:15.

Saturday, "The Jaeger Trap," wild animal drama.

Sunday, The Melva Sisters. Some clean and classy act.

Monday, "The Goddess." Enuf said.

SEX IN THE USE OF WORDS

Interesting Statistics That Have Recently Been Collected by Two University Professors.

Prof. W. A. Cook of the University of Colorado and M. V. O'Shea of the University of Wisconsin have been studying the spelling and vocabularies of large numbers of persons in every station of life. The results of their work are published in a book, "The Child and His Spelling."

Among the analyses made by these professors is that relating to sex in the use of words. In a list of 200,000 words used in private correspondence they find that the following classes of words are dominant in the letters of women:

Articles of food and terms relating to the consumption and preparation thereof; articles of wearing apparel; textiles and terms closely related thereto; parts of the body, care of the same, personal appearance; animals, esthetics, color, diseases and their treatment; parts of the house, furniture, measures, correspondence, domestic activities and relationships.

Words dominant in letters of men were terms of aggression, contest and domination, physical and mental; institutional life and social organization. Then there is a long list of words that could not be classified under either head.

Our Advice Is:

When you feel out of sorts from constipation, let us say that if

Rexall Orderlies

do not relieve you, see a physician, because no other home remedy will. Sold only by us, 10 cents.

THE CLERK GUARANTEED IT.

"A customer came into my store the other day and said to one of my clerks, 'Have you anything that will cure diarrhea?' and my clerk went and got him a bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy, and said to him, 'If this does not cure you, I will not charge you a cent for it.' So he took it home and came back in a day or two and said he was cured," writes J. H. Berry & Co., Salt Creek, Va. Obtainable everywhere.—Adv. d&w
